About
Classwize

Classwize is a powerful solution that enables leaders to create and maintain secure and productive digital environments for their students.

Real-time visibility and intuitive controls allow teachers to protect students from online distractions and harmful content while keeping them focused, engaged and learning.
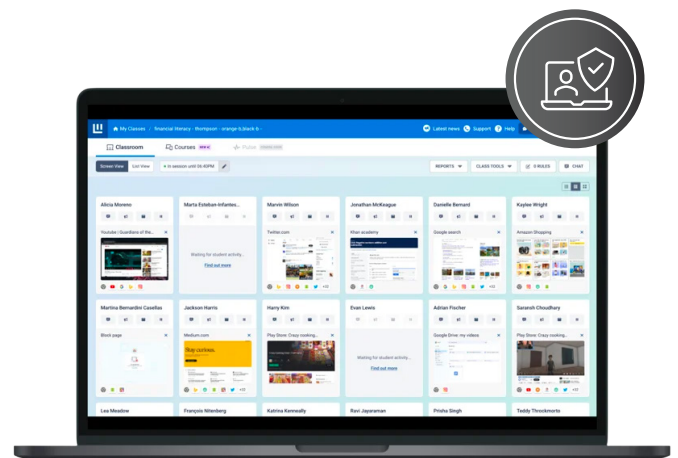

keeping children safe, focused & learning

How it works

From a dedicated dashboard, teachers can:

Control everything students see in class; easily pre-plan what sites are accessed before class begins; spot if a student goes off-track and block what they're looking at; permit group or individual access to new sites during class — and so much more.

Eliminate reliance on IT, and the delays and challenges associated with blocking and unblocking requests.
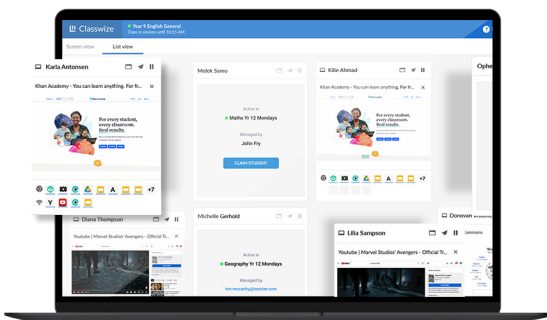

Classwize
features & benefits

Minimises distraction:

✓ **Teachers can see everyone's online actions**
The Dashboard gives full visibility of students'
online activity in class and in real time.

✓ **Quickly spot off-task internet use**
Spot inappropriate or off-task internet use as it
happens and redirect attention as needed.

✓ **Control internet access**
Prevent access to distracting, non-relevant
websites and apps during class. Close any tab a
student is seeing if it's off-task or inappropriate.
Set access policies to ensure websites and apps
are available, class by class. Eliminate unwanted
restrictions or delays.

harnessing the power of connection

Maximises learning:

✓ **Guide and reinforce responsible use**
Effectively guide students on the internet
during class. Focus students on lesson-related
content only, by pre-selecting the specific
apps and sites students need to see.

✓ **Introduce additional content as needed**
Introduce any additional resource during
the class. Open on every student's device
simultaneously — or on individual devices only.

✓ **Pause the internet**
Get everyone's attention quickly by pausing
the internet, either for the whole class, a
group or individual students.

Classwize
features & benefits

___

Encourage positive behaviour:

✓ **Support self-moderation**
Support self-moderation by identifying and rewarding those students doing the right thing online.

✓ **Give rewards**
Reward students with limited access to resources they wouldn't normally access in school, such as time for gaming.

✓ **Provide discreet help**
Send a direct message to an individual student without embarrassing them in front of the class or disturbing anyone else.

"

I've definitely been that teacher, really frustrated because I haven't been able to go ahead with a particular task I had planned because a certain site was blocked. There are huge benefits to teachers having control such as being able to open up a particular site for a particular activity for example. It's a really powerful learning tool."

**Glen Eden School
Auckland**

Full device and OS support

Includes managed and unmanaged BYOD, Chrome, Windows and macOS.

Classwize's role in our
Digital Safety and
Wellbeing Framework

About our Framework

Our Digital Safety and Wellbeing Framework enables school leaders to explore our solutions as they apply to the three most common pillars found in health and safety planning:

1. Prevention 2. Early detection 3. Education.

Schools can use this, supported by our Linewize team, to identify their priorities and plan the steps needed to achieve a more efficient and robust provision of care.

Our Framework is also a useful way for school leaders to keep abreast of the types of solutions available to them in the market.

It also helps them to better understand the role each of them plays and how they combine to build a digital wellbeing culture across the whole community.

none of us is as powerful as all of us

The role of Classwize

Classwize sits in the Prevention & Enablement part of our Framework.

It protects students from seeing inappropriate or harmful content while giving teachers the tools to

minimise distractions and provide rich and immersive digital learning experiences.

Classwize is a vital component in a proactive digital safety and wellbeing provision.
