

Linewize School Manager

An advanced filter and reporting platform that supports student wellbeing and digital citizenship.

About School Manager

School Manager is an education-focused filter and reporting platform that provides a safe online experience for students and an efficient and productive experience for staff.

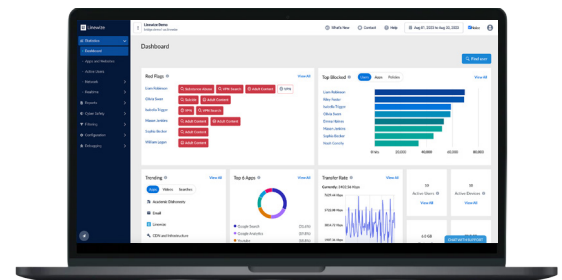

Cloud-managed and multi-OS, School Manager is easy to administer and easy to navigate. On and off-network filtering protects students no matter what network they are connected to.

Non-technical staff can easily manage filtering and alerts to receive timely insight and initiate rapid interventions as needed — without over reliance on IT.

Highlights

- ✓ **Education-focused filter and reporting platform**
Delivers critical benefits for technical and non-technical staff, allowing schools to ensure a safe experience for students and an efficient and productive experience for staff as needed. No unwanted restrictions or delays.
- ✓ **Protects beyond the school gates**
On and off-network filtering protects students no matter what network they are connected to.
- ✓ **Real-time protection**
Provides real-time protection against harmful content, cyber threats, and distractions, ensuring a safe and secure digital learning environment for students.

“The Linewize ecosystem is unique in providing a complete end-to-end solution for schools in terms of duty of care and educational outcomes, with the addition of community engagement and support.”

Yugon Chobanoff IT Director
John XXIII College

School Manager features & benefits

Helps leaders and pastoral staff support students' wellbeing and digital citizenship:

✓ Alerts for non-technical staff

Provide staff with visibility of student online search behaviour. Alerts them to issues such as cyberbullying, violence, self-harm and much more.

Non-technical staff can easily manage filtering alerts and receive timely insights that support rapid and timely interventions.

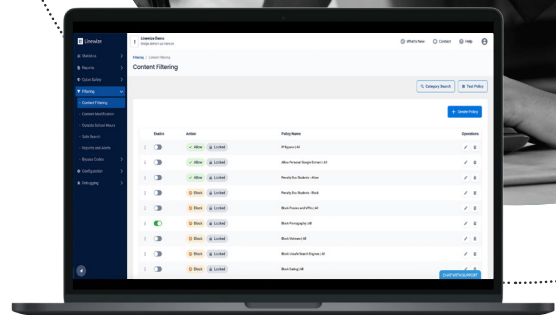

✓ Indepth picture of student online behaviour

Leaders and pastoral staff can understand trends and patterns in behaviour and device usage to ensure students are guided towards effective use of technology.

✓ On and off-network filtering and reporting at all times

Schools can ensure students are safe and on-track no matter what network they are connected to. Protects all devices, at all times including PCs, iPads, Chromebooks, laptops and more.

Dedicated to keeping children safe

Enables IT to enforce policy on all student devices:

✓ Student device enrolment

Streamlines deployment through student installation of filtering agents when accessing the school network.

✓ Touchless BYOD support

Students can easily connect and authenticate their devices to the school network. Ensures compliance with default policy enforcement so students can securely and safely use personal devices at school.

✓ Classroom tools for teachers

Enables screen and content visibility of devices in class, at a student-by-student or classroom level.

School Manager features & benefits

Helps IT expand platform options:

✓ **Scalable, flexible deployment options in the cloud or hybrid**

Local and cloud gateway filter services offer high performance and scalable filtering solutions for networks. Our hybrid approach provides confidence that student devices are protected on every network.

✓ **Advanced policy management**

Create school network policies using an extensive list of signatures, applications and categories, purpose-built for education environments. Use advanced selection criteria for users, groups and network segments and configure alerts and escalations for any detected signature.

✓ **Real-time reporting**

Provides fast, responsive and enterprise-class reporting, analytics and insights for all network sizes. Schools can analyse network usage to ensure policy compliance with dashboards and drill down reports. Quickly build executive summaries for users, groups or school.

*harnessing the power
of connection*

Helps IT streamline administrative tasks:

✓ **High bandwidth filtering**

Supports deployments with multi-gigabit connections, on-premise, off-premise and hybrid. Support high demand networking environments ensuring all devices are protected by your policies on any network.

✓ **Advanced authentication**

Supports AD, LDAP, WMI, SSO, RADIUS, Google and Azure AD. Plus an intelligent captive portal as a fallback for user authentication.

✓ **Reports and alerts for student wellbeing**

Easily create, generate and schedule tailored reports for pastoral care and administrators.

School Manager's role in our Digital Safety and Wellbeing Framework

About our Framework

Our Digital Safety and Wellbeing Framework allows school leaders to explore our solutions as they apply to the three most common pillars found in health and safety planning:

1. Prevention
2. Early detection
3. Education.

Schools can use this, supported by our Linewize team, to identify their priorities and plan the steps needed to achieve a more efficient and robust provision of care.

Our Framework is also a useful way for school leaders to keep abreast of the types of solutions available to them in the market.

It also helps them better understand the role each of them plays and how they combine to build a digital wellbeing culture across the whole community.

none of us is as powerful as all of us

The role of School Manager

School Manager sits in the Prevention & Enablement part of our Framework.

Its advanced filtering capabilities protect students from harmful content, whatever network the device is on. And its advanced and flexible reporting give

pastoral staff vital visibility to support students where needed.

School Manager is a vital component in a proactive digital safety and wellbeing provision.
